

Opendoor RFID Electronic Lock System

Tel: 08443-510805
Email: Sales@keystep.co.uk
www.keystep.co.uk

Applications:

Traditional Luxury Hotel
Private Members Clubs

Features:

High security & tamper proof design
Security deadbolt for added privacy
Emergency one action egress from inside
Latch alarm for improper door closing
Fire rated
Smartphone compatible

Accreditations:

EN 14846:2008 - Electromechanically operated locks & striking plates

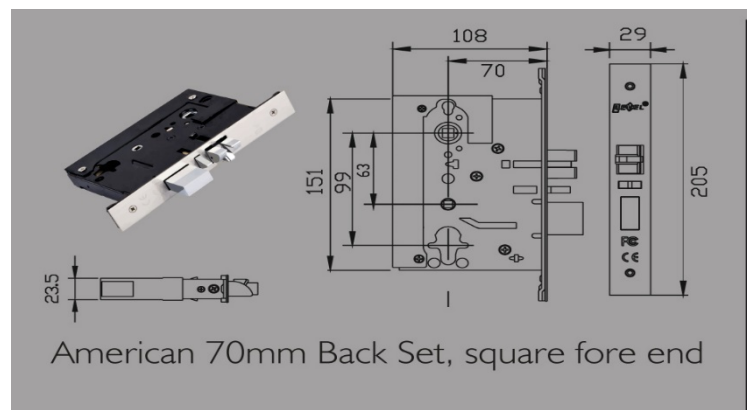

EN 50371:2012 - R&TTE, low-power human RF exposure & European EMC, LVD directive

EN 1634-1:2014 - Fire resistance & smoke control for a minimum of 30/60 minutes

Audit/Data trial function:

The lock set has the ability to store 1000 transactions of which token (card, fob, wristband, mechanical key etc.) opened the door at what time & date. In addition, the lock set also records when the door was opened from inside.

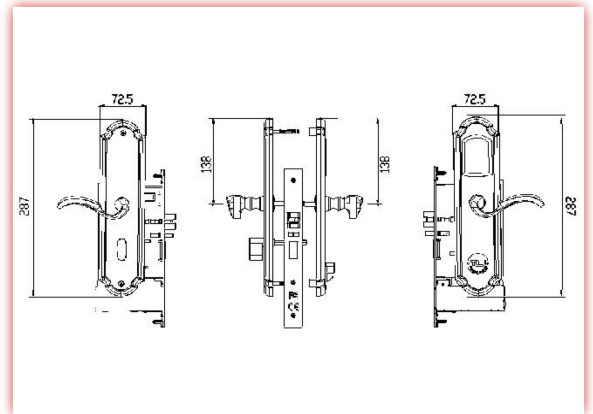

Lock Case Options:

Classic RFID Lock Set

The Opendoor Classic lock set utilises RFID technology to offer seamless 'contactless' operation, enhancing convenience and ease of use. Its classic design lends itself to traditional hotels or private members clubs. A wide selection of lock cases, fore ends, keep plates and escutcheons aid a simple upgrade from older mechanical keyed systems or outdated, redundant mag-swipe systems.

Comes with the option of Bluetooth mobile phone access.

Colour Finish Options:
